

THE OCS SOLUTION

Integrate detailed route information with back-office application.

THE MOST COMPREHENSIVE SOFTWARE SYSTEM FOR OFFICE COFFEE OPERATORS.

MEI EASITRAX® vending management solutions for office coffee service (OCS) enables you to efficiently manage order entry, delivery and sales processing. The result: drastically improved customer satisfaction and reduced costs. And, MEI EASITRAX for OCS has a comprehensive warehouse inventory module so you can manage inventory and your cash flow.

Easy-to-use asset management and equipment tracking/service modules allow you to manage your assets, review repair histories, track technician response times and control parts inventory.

Our back-office application, when combined with a handheld computer solution, can

improve your operations even more. Detailed cash, product and service information obtained using the route handheld can easily and accurately be downloaded to the back-office application. This eliminates data entry and errors, and saves driver time. And your driver can use a single handheld to support both your OCS and full-line vending operations.

MEI EASITRAX vending management solutions is one of the best investments you can make to improve the profitability of your business. Many of our customers experience return on investment in less than one year, and a significant increase in customer satisfaction and business control.

ENHANCE YOUR BUSINESS WITH:

- ▶ *Tel-sell, pre-sell or off-truck sales...*
- ▶ *Portable printing...*
- ▶ *Sales analysis...*
- ▶ *Global price control...*
- ▶ *Flexible delivery sequencing...*
