SERVICE BULLETIN

New Program Chip Version 2.00 for WING SHOOTING CHAMPIONSHIP

We are announcing NEW GAME FEATURES to enhance game play. Please refer below.

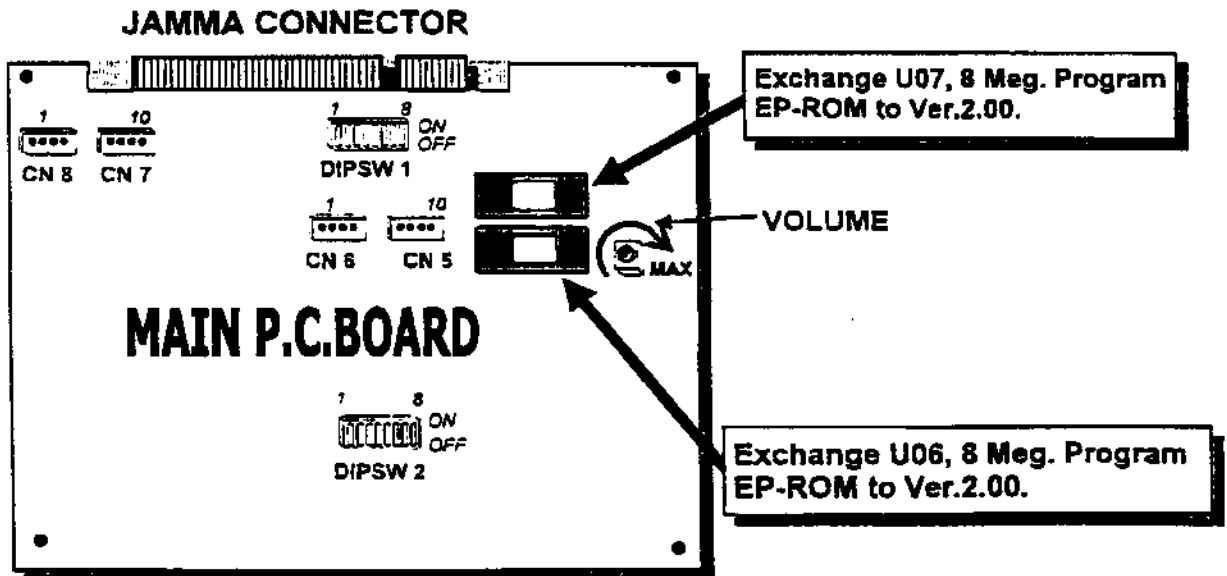

NEW FEATURES

- Easier play for the first 3 hunting spots in every state with the addition of more birds.
- The "BEGiNNER" weapon has been changed to the 5-shot *PUMP SHOTGUN* plus the "hit area" for each shot has been increased, same as the 3-shot *SEMI-AUTO SHOTGUN*.
- Player can now advance through all result screens faster by pulling gun trigger.
- The Auto Select bird is now GOOSE (easiest target) if player fails to choose bird at start of game.

There are 2 pcs of Program EP-ROMS on Wing Shooting Championship Main PCB. Refer to the location of EP-ROMs (U6 and U7) as shown below to exchange to the Version 2.00 chip set.

DIP SW Table is same as original one.
